

Green municipal address signs

If you live in a rural area, green municipal address signs are mandatory at the entrance to your property so that emergency vehicles can clearly identify your address from the street.

You are responsible for purchasing, installing, maintaining, and/or replacing your own sign.

Green municipal address signs can be purchased from any sign company as long as they meet the standard for placement of municipal house numbering signs. Poles and clamps are also available to purchase at an additional cost.

Sign Specifications:

- Flat aluminum or metal sign blank of 40.64 cm X 12.70 cm (5" x 16")
- White numbers 10.16 cm (4") high on a green background
- Numbers and background to be made of engineering grade retro-reflective traffic sign sheeting

Municipal address number signs in the rural area shall be attached to a post which is clearly visible from both sides of the roadway. The sign should be next to the property line at the driveway.
